

» IWS-225WB

High-performance **In-wall WiFi Streamer Amplifier** for wireless Multi-room/Multi-Zone Applications

Product Description

Pragmatic IWS-225WB is a high-performance single gang In-wall WiFi Network Streamer with built-in Bluetooth receiver, 2x1 digital switch and an integrated high-efficiency stereo audio amplifier. The unit has only power supply and speaker terminal connections. The unit can be used for multi-room, multi-zone audio applications as well as stand-alone applications for flat screen TV with Bluetooth connectivity. The unit is easily controlled by simple Apps on smartphone. In multi-room/multi-zone applications, each unit can be synchronized to play the same music in each room or each room can play its own music. IWS-225WB is designed for an extremely easy upgrade to legacy multi-room systems with minimal installation labor.

Pragmatic IWS-225WB supports many popular services like Spotify, Qobuz, Tidal, AirPlay, iHeart, TuneIn, Amazon Music, vTuner, Pandora, Deezer, Roon Ready, DLNA, NAS, QQMusic, Napster, BBC Radio, Open Network Stream, Radio Paradise, internet radio, etc.

The system is easily controlled with many popular third-party Apps like WiiM, 4Stream, AudioCast, Audio System, etc. These Apps can be downloaded on a smartphone or tablet from Google Play or Apple App store.

Applications:

- Multi-room/Multi-zone whole house audio
- Applications in homes, restaurants, hotels, offices, corporate boardrooms, etc.

Feature & Benefits:

- Compatible with all Pragmatic PHA speakers
- Matched to In-ceiling & In-wall speakers
- Simple, elegant and powerful multi-zone system
- Energy Efficient design, easily expendable
- Play online music, Internet Radio, Airplay, DLNA
- Simple operation with many third party Apps
